

Specification Management Subcommittee

- **Highlights from this Meeting:**
 - Affirmed staff review: UCM 1.3
 - Published: UAF 1.2, ASCQM 1.1, IDL 4.2, UAF 1.1 (for ISO)
 - Discussed errors incurred during SMSC/SCE split, referred to AB for production of guidance document for chairs on how to best manage this process
- **Deliverables from this Meeting:**
 - Editor's Report (smc/22-01-01)
- **Agenda Items for the Next Meeting:**
 - Review remaining templates
 - Policy for technical elements (code, model elements, etc) styling
 - Cover Page: URI for 'machine consumable' is nonsensical on its own
 - Model -> Specification generation (extend to Ontologies?)
 - Use of Wiki for spec authoring
